

30 March 2020

BB Campus

Dear Parents/Guardians,

In light of the developing COVID-19 situation in Singapore, we have put in place strict precautionary measures over the past two months to keep our school a safe environment for our students, and to allow our students to continue learning.

With the recent spike in imported cases and the tightening of nationwide safe distancing efforts, we are further enhancing precautionary measures by reducing transient congestion during school dismissal. **From tomorrow, students who are fetched by caregivers will be dismissed at 12.20pm and 5.20 pm for AM & PM sessions respectively. Caregivers are to be in school 5 minutes prior to the revised dismissal time, so as to minimize mass congregation at the school foyer.**

Dismissal times for students on School buses and 2 hours programme remain unchanged.

From April 2020, all SPED schools will implement one day of Home-Based Learning (HBL) a week. This will help us prepare for an extended period of HBL should the need arise, so that our students can continue with their learning. **Our school will be conducting HBL every Thursday starting from 2 April 2020.** In the event that the HBL day falls on a public holiday, your child will not need to make up for HBL on another day. **Lessons will proceed as per normal on the other school days of the week.**

You will be provided with instructions on how to access the HBL materials by your child's Class Educator. You will receive an activity template and teaching resources from your class educators by Wednesday, 1 April 2020.

As your child's Class Educator will be calling you on the day of HBL to check in with you and your child, please update him/her with your preferred contact number. You may also wish to inform him/her on the best time to call.

On the day of HBL, please ensure that your child stays at home and continues to observe good hygiene practices such as washing their hands frequently with soap. If he/she feels unwell, please seek medical attention promptly and inform his/her class educators if he/she displays any fever or flu-like symptoms.

All external activities and all CCAs will remain suspended for the rest of Term 2.

MOE is monitoring the situation closely and we will update you should there be any changes to the precautionary measures that we are implementing. We urge parents to rely on official sources of information and not to circulate any unconfirmed information. If you have any further queries, kindly contact your child's class educators. Thank you.

Yours sincerely

Mrs Jenny Lai
Principal
